

## Sherry Chaput Recognized for Outstanding Commitment to Aviation Parts Distribution

Immediate Release  
24 June 2024

*Scottsdale, AZ* – We are delighted to announce Sherry Chaput as the recipient of the Edward J. Glueckler Award. The announcement was made during the 2024 ASA AFRA Conference.

Sherry has become one of the driving forces in open discussions about the increased requirements in traceability and documentation and having discussions about what is truly needed and reasonableness in reviewing paperwork packages. Her openness in working with ASA, its members, and the industry to bring this discussion to the forefront and drive change. Sherry is an ardent member of the ASA Quality Committee and a regular speaker at industry meetings. Sherry has proven her expertise in performing audit reviews in back-to-birth trace paperwork for commercial aircraft sales to help identify inconsistencies and irregularities in back-to-birth traceability. She has committed her time and knowledge by contributing to the Guidance Material and Best Practices for Life Limited Parts (LLPs) Traceability for IATA. Sherry also serves on the American Aerospace, Manufacturers & MROs Committee and Career Growth Committee for IAWA.

“Sherry’s commitment to changing the documentation paradigm that is in many cases unnecessarily overwhelming the industry, led ASA to recognizing her with the Edward J Glueckler Award. Sherry has used her voice and influence to lead a much-needed discussion and to start a group to look at updating Guidance Material for LLPs. We view Sherry’s work as a positive for the membership and industry, stated Michele Dickstein.”

The ASA Annual Conference held in late June in Scottsdale, AZ focuses on quality, legal/regulatory and business issues affecting the aviation parts distribution industry. Named for the founder and first President of the Aviation Suppliers Association, The Edward J. Glueckler Award is presented each year at the conference in recognition of outstanding commitment, dedication and contribution to ASA and the aviation industry.

### **Aviation Suppliers Association**

*Over 30 years in the industry, the Aviation Suppliers Association (ASA), based in Washington, D.C., is a not-for-profit association, representing more than 950 global member companies that are positively shaping the aviation industry. Collectively, they lead critical logistics programs, purchasing efforts, and distribution of aircraft parts worldwide. Member companies include distributors, suppliers, surplus sales organizations, repair stations, manufacturers, airlines, operators, and other companies that provide services to the aviation parts supply industry. In addition, over 380 companies have received global accreditation to the ASA-100 Quality System Standard and FAA Advisory Circular 00-56 since 1996. The Aviation Suppliers Association Certification Body (ASACB) is an ANAB accredited certification body for ISO 9001:2015, AS9100, AS9110 and AS9120 audits.*
